

For the months of April and May, DC will not be publishing any of their normal “New 52” superhero comics. Instead, each month will feature 40 different Convergence issues, spotlighting a variety of eras for DC’s heroes. Pre-Flashpoint, Post-Crisis, Golden Age, and many more alternate realities as well. Since most (if not all) of these 40 comics aren’t based on series you may have a subscription for, we’re asking all of our subscribers to look over this list to see if there’s anything from Convergence that you’d like to add. Keep in mind, this is everything DC’s publishing for superhero comics in April and May, so if you don’t fill out this list, you won’t be receiving any DC superhero comics in April or May. Below is a list of each 2-issue series shipping in April and May. Any questions, let us know!
